EXPLANATION TENDER DOCUMENTATION

pursuant to the provisions of Section 98 of Act No. 134/2016 Coll., public procurement law, as amended

Title of the public procurement: **NÁKUP LISTŮ NOSNÉHO ROTORU**

1) The Contracting authority has received the following inquiries from the supplier

1. Does the package of documents that need to be submitted correspond to the package for qualification in the DNS?
2. Where I can find the draft of the typical documents (just to understand that we are doing everything in the proper way)?
3. Will you be able to check the docks until they are placed on EZAK ?
4. Is it possible to mix English and Czech documents in The tender documentation ?
5. Is it necessary to send the originals and until what date if we place everything on the ezak without a digital signature? We do not have a digital signature.
6. Do I need to somehow confirm the qualification of the enterprise if we are not from the EU and there is no such thing in the UAE.

2) Explanation of the tender documentation by Contracting authority

1. The package of qualification in the DNS correspond with the documents in this public procurement.
2. Draft of the required documents are in tender documentation in article 4 „Kvalifikace dodavatelů“. Which means „supplier's qualification“.
3. It is not possible to check the documents before deadline for submitting bids.
4. You can insert the documents in Czech and also in English version. Except documents which you get from the Czech offices.
5. If you won't have an original documents before deadline for submitting bids, you can insert the copies. I will invite you for sending an original documents. Chosen supplier will be requested to submit original documents before entering into the contract.
6. This is not necessary in the case that similar document doesn't exist in your country.
